

Infertility Prayer

Mother of Christ, you received from God the treasured blessing of divine motherhood. In the name of the joys you knew when you pressed your precious Baby to your breast, please hear and bless my petition! You are the Mother of Mothers and you hold Motherhood very dear. You know how immensely great is the privilege of bringing into this world a tiny soul destined to praise God forever in heaven. This is the privilege I now seek, Mary! Dear Sweet Mother, I ask that through your intercession God would grant to my husband and I the grace to conceive a child.

O Father, I trust in You and in Your unconditional love for us. I believe that you will hear my prayer, offered through the holy intercession of Your Beloved Mother Mary. I believe that You will answer me according to Your Divine Will, for You have promised to give us the desires of our heart as we delight in You. O Lord, increase in us always the presence and power of Your Divine Life. Thank You for Your mercy, grace, peace and provision. In Jesus name.
Amen!

HOLY MOTHER OF GOD, PRAY FOR US!
