

# MADONNA & CHILD CUPCAKE TOPPERS

**Directions:** Use a pair of scissors to cut around each circle or if you prefer to make it more fancy you can cut it out by following the scalloped edges. Next place a toothpick in between two circles with the image facing out on both sides and glue together (that way it will be two-sided). Now you have a cupcake topper that can be inserted into your favorite cupcake to celebrate any special occasion or for the best reason of all just because.
